

# AQUASAFE

## PVC FABRIC

### APPLICATIONS

Tank liners, water bladders and all applications where contact with drinking water is required

<b>Roll Width</b>	205cm
<b>Roll Length</b>	200 metres
<b>Nominal Weight</b>	750gsm
<b>Thickness</b>	0.65mm
<b>Fabric Type</b>	PVC coated polyester
<b>Base Fabric</b>	Woven 1100dtex polyester
<b>Fabric Density</b>	9 x 9 threads per cm <sup>2</sup>
<b>Finish</b>	Matte
<b>Treatment</b>	UV stabilised & water potable
<b>Colour</b>	Grey
<b>Tensile Strength</b> [AS2001.2.3.1-2001]	Warp: 3098N/50mm Weft: 2509N/50mm
<b>Elongation at Break</b>	Warp: 16.99% Weft: 29%
<b>Wing Rip</b> [AS2001.2.10-1986]	Warp: 374N Weft: 346N
<b>Flex Cracking Resistance</b> [AS1441.6-1973]	Tested to 400,000 cycles

Test results available on request. Contact with drinking water AS/NZS 4020:2005
